DININGWARE™

enriching experiences.
well served.

Our passionate specialists consider these six aspects in the selection and design of all products in our Intuitive Diningware collection.

Elevating the Dining Experience, for All

Everyone deserves dining experiences that are more inspiring, accessible and dignified. This principle is the guiding core of Libbey's Intuitive Diningware™

Dining that fails to meet expectations

is the number one factor influencing resident satisfaction.

- Senior Housing News

As a leading provider of integrated tabletop solutions in hospitality and foodservice environments, Libbey® brings a new perspective to the senior living dynamic. We help you create attractive, hospitality-caliber experiences that also come easily and naturally for your diners - so they can again focus on what they love about dining.

DINNERWARE
COLLECTION

Intuitive Design Can Be Beautiful

Your dinnerware is often the centerpiece of the dining experience. And it doesn't have to compromise on style to better accommodate your diners.

Our dinnerware selection helps you create an uplifting, restaurant-like aesthetic and experience, while also incorporating subtle design elements that make dining easier for those with limited strength, coordination or eyesight. This includes features that make items easier to hold, see the edge of the eating area, and keep meals warm longer.

Farmhouse® – Hand-decorated rim design and four mix-and-match colors create a comforting, home-style aesthetic.

 EMOTION

Donna Senior – Vibrant rings of color make it easier for diners to see the edge of the eating area or where a plate gets deeper.

 VISION

Welled Trays

Welled designs (5 options available) are ideal for separating messier sides, while also simplifying portion control and making it easier for diners to push food onto a utensil.

 DIETARY

Donna Senior

Enhanced with discrete functional aids in shape and color, this thoughtfully designed collection from SCHÖNWALD makes dining easier for your diners without calling undue attention.

DINNERWARE

INFINIUM®

PREMIUM PLASTIC DRINKWARE AND SERVEWARE

Infinium Wake™ plates, bowls and drinkware feature glass-like clarity, in lightweight, textured designs that are easy to grip and hold. Beverageware also features a raised notched design that helps reduce slippage. Made of 100% BPA-free Tritan™ copolyester, all items are highly resistant to impacts, cracking, crazing and shattering. 12 items

GLASSWARE
COLLECTION

Quenching a Desire for Comfort and Confidence

For those with strength and coordination challenges, simply trying to hold their drink can become difficult and uncomfortable – which can also increase the risk of spilling and dropping.

Beverageware in the Intuitive Diningware™ collection is specifically selected to allow diners to hold their drink with confidence, minimizing fatigue, while also coming in smaller sizes that complement their nutritional requirements.

At the same time, Libbey's eye-catching and expertly crafted array of glassware and premium plastic drinkware provide the flexibility to serve a versatile and enticing menu of options.

Contour – Elegant designs are also easy to hold. Goblets can be grasped from below to minimize slipping for a confident grip.

Embassy® – Smaller glass sizes help simplify portion control for drinks and snacks while retaining great presentation value.

FLATWARE
COLLECTION

Connecting to the Experience

Flatware connects diners with the experience at the table, but it's often difficult to handle for those with arthritis or other mobility issues. Unfortunately, the utilitarian style of most flatware on the market tailored for these needs makes dining feel far from a restaurant-like experience.

Libbey® Intuitive Diningware™, on the other hand, strikes a more pleasing balance of form and function. Our specially designed flatware elegantly combines style and intuitive elements, such as larger, hollow-handled options that lighten the weight and ease handling while retaining a stunning appearance.

Clayton – Three-piece collection in 18/10 highly polished stainless steel. Ergonomic knob grip makes eating less tiring and more pleasant. Easy to pick up and facilitates easier scooping and cutting.

 COORDINATION

Ada – Seven-piece collection in highly polished 18/10 stainless steel. Large ergonomically designed handles and lightweight design reduce stress on the hand and wrist.

 GRIP

From contemporary to classic

Libbey® offers a range of additional flatware designs to complement the aesthetic of your presentations, with the durability required for rigorous daily use.
